26 April 1972

MEMORANDUM FOR: Deputy Director for Science & Technology

SUBJECT: Re-entry Study

Carl-

1. As you are aware, the Department of Defense is in the process of studying the various collection systems associated with the re-entry problem. Hal Bowen of Al Hall's staff has advised the IRAC Working Group of this study and has invited DCI participation. This is clearly of primary interest to you and I would appreciate it if you would name someone from CIA to this study.

2. You should be aware that [] has discussed this matter with Dave Brandwein and received specific requirements which Dave would like the study to address. These were tabled at the IRAC Working Group session of 20 April as the DCI requirements, and were accepted by Defense.
